PRIVACY POLICY

UNOFFICIAL GUNGEON ITEM RECOGNIZER

This privacy policy will explain how your personal data is used by the Android application "Unofficial Gungeon Item Recognizer", created by Simone Mallei.

PERSONAL DATA

The data processed by the application is composed by the images obtained using one of your device's cameras.

In order to obtain and process this type of data, the application asks for the "Camera Permission".
The denial of this permission will anyway permit the use of the application, but won't give the access to the functionalities that need to use a device's camera.

The next sections regards collection, use and share of your data if you give the "Camera Permission".

COLLECTING DATA

The data processed by the application is **internally temporarily collected**.
By **internally temporarily collected** we mean a collection of data that is:

- **Internal**: it's internal in the application and won't be shared to anyone in any way by the app. For us it's not possible to have your data by your use of the application since it works completely offline.
- **Temporary**: the data is collected temporarily for the application's purpose and won't be available afterwards.

USING DATA

The data is used solely for the application's purpose and it is not used in any other way by the application.

SHARING DATA

The data collected and used by the application is not shared internally nor externally the app.

STORING DATA

Since the application is completely offline and does not share in any way the data with us nor any third party, we do not store any of your data.

CONTACT US

If you have any questions regarding application's privacy, or have questions about our practices, please reach out to us via e-mail at simonemalleidev@gmail.com .
